

AUA Career Services advise and connect you to opportunities for getting internships and jobs, and support you in choosing a career that really fits in with you, by discovering your personality type and determining your interests and abilities.

Self-Discovery

Career choices that combine your skills, interests, values, and personality are likely to be a good fit.

Ingredients for Making a Well-Informed Decision

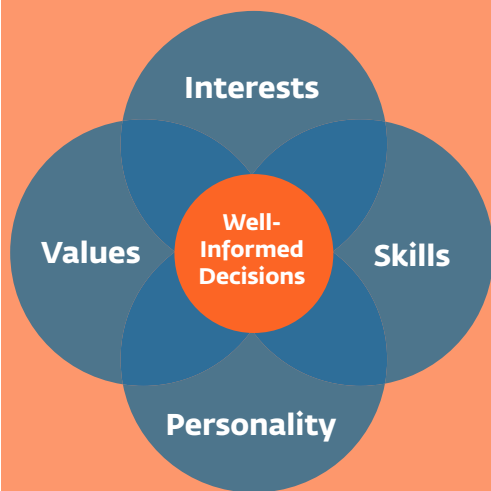

Interests are those subject areas, disciplines, topics, and issues that deeply engage you and pique your curiosity, defining what you like to do and how you prefer to do it.

Skills are your strengths and abilities, and may reflect analytical, communication, organizational, technical, or creative capabilities.

Personality reflects our preferences, and how we like to operate in the world based on our particular combination of preferences.

Values reflect the things that are most important to us in both personal and work life, motivating us to do the work we enjoy.

You will definitely benefit from taking an aptitude test!

AUA Career Advisor is ready to meet with you and talk about your interests, abilities and career plans. So, do not hesitate and schedule an appointment via Career Services Scheduling System: <https://aua.mywconline.com/> or just contact: careerservices@aua.am
